WHEATLAND S. D.

The Board of Trustees of the Wheatland School Division No. 40 met at Strathmore on Friday, September 24, 1943.

Advent school, located about 5 miles east of Beiseker was closed and the pupils will attend at the two room school at Level-Land where more advanced educational facilities will be provided. A good re-conditioned bus was purchased, of about 25 passenger capacity, to transport approximately 20 pupils from the Advent district to Level-Land.

Long Beach School, east of Standard was closed and provision is being made to transport the children of this district to Dana School in Standard. The enrolment at Long Beach school was only 8 pupils.

In addition to the list previously published, teachers have now been provided for the following schools—

Brushy Lake— Mrs. E. C. Midgley
Bryn Mawr— Mrs. Margaret Wade
C. X.— Miss G. M. Labonte
Delft— Miss Mary Podwysocki
Fairplay— Mrs. Selma Groves

The opening date for schools in the Division has been set for Tuesday, October 12th. From then until November 30th, school will open at 9:30 a.m. and dismiss at 4:00 p.m. Commencing December 1st, 1943 and until March 31st, 1944 schools will open at 10:00 a.m. and dismiss at 4:00 p.m. with the exception of High Schools which shall continue throughout on the former time.

Teachers institutes are to be held in each sub-division on the following dates—

Sub-div. 2. - Kathryn—Oct. 18, 1943.
Sub-div. 4. - Swallow—Oct. 19, 1943
Sub-div. 3. - Beiseker—Oct. 20, 1943
Sub-div. 5. - Standard—Oct. 21, 1943
Sub-div. 1. - Strathmore—Oct. 22, 43
By the time schools open at least 15 rural schools will have received a complete new interior decoration. In addition to this the interior of the four room school at Carceland has received a double coat of paint throughout, blackboards and desks recoated and the school generally put in top condition. This school plant is now one of the finest in the Province in any town of like size. The High School, Public School, and Dormitory at Kathryn have also been entirely redecorated inside and are in fine shape for the opening.

There are a few more schools slated for interior painting which were not able to be done this year owing to the scarcity of help, but minor repairs will be carried on as long as the weather permits.

SOROSIS SOCIETY PACK PARCELS

Fifty boxes of tasty viands were packed Tuesday to be sent to all men enlisted from Strathmore and now serving in the Overseas Forces. Ladies assisting were Mesdames Nicholl, Schulte, Hirtle, Willson, MacKenzie, Perry, Shrimpton, Gannon, J. Crellin, N. White and Sorenson.

The Sorosis Society wishes to express their very grateful appreciation for the generous donations received by them from the general public, making the sending of those boxes to the boys, possible.

OBITUARIES

MRS. JAMES COLLISON

Mrs. James (Annie Abigail) Collison 73, died in a Calgary hospital Wednesday morning, Sept. 29th, following a lengthy illness. She had resided in Strathmore but had been in Calgary for six days receiving medical treatment.

Born in Kincardine, Bruce County, Ontario, she came to the Strathmore district 33 years ago. She had been active in the life of the community. Her husband died in August, 1935.

Surviving are— five daughters, Mrs. Dolly Stevens, Sylvania, Sask.; Mrs. Beatrice Barton, Albany, N. Y.; Mrs. Della McDiarmid, Duncan, B. C.; Mrs. Adeline Craig, Armada, Alberta; Mrs. Irene Woolf, Calgary, Alberta; three sons, George, Vancouver; Eddie, Victoria; Wilfred, Ensign, Alberta, and 17 grandchildren and two great grandchildren.

Funeral services will be conducted by Rev. S. J. Hunt at 2 p.m. Saturday October 2, in the Strathmore United Church, and burial will follow in the Strathmore cemetery, Melinas and Holloway with Chase Funeral Home, are in charge of arrangements.

Pall bearers are, T. E. Wright, A. V. McFarland, James Gunn, James Swanson, S. C. Sorenson and George Anderson.

DALEMEAD DISTRICT HONORS MCKINNON

It was like old-home night for the Lachlin McKinnons on Tuesday evening, when more than 300 of the Dalemead district met in the community hall to honor Mr. and Mrs. McKinnon on the occasion of their golden wedding anniversary.

Among special guests was Rev. J. P. Berry of Edmonton, at one time a minister in Calgary.

Old songs were sung, and the 16 grandchildren of Mr. and Mrs. McKinnon sang "Put On Your Old Gray Bonnet."

The couple was presented with two paintings of Indian papposes, done by Gerda Christoffersen.

New Loan in Two Maturities

OTTAWA, Sept. 24.—(CP)— Finance Minister Halsey announced today that Canada's 11th Victory Loan, opening Oct. 18th, with a minimum objective of \$1,200,000,000, will be in two maturities—a 15-year-and-two-months issue and a three-year-and-six-months issue.

He said the new bonds will mature as follows;

An issue bearing interest at three per cent, offered at a price of 100 per cent, and maturing at 100 Jan. 1, 1959, and a shorter term issue bearing interest at 1 1/2 per cent, at a price of 100 per cent, and maturing at 100 May 1, 1947; both types of bonds will be dated Nov. 1, 1943.

The bonds will be similar to those of previous loans except that the first interest coupon on the three per cent. bonds will be a period of eight months with coupons becoming due every six months thereafter. The reason for this is that the large volume of coupons due in May and November to millions of holders is creating a heavy task which, to some degree, will be lightened by the change of interest dates to January and July.

Strathmore Credit Union

A successful meeting of the Credit Union was held in the Town Hall on Tuesday evening.

Five speakers from Calgary were present and gave interesting talks and added much zest to the meeting. They were Messrs Scott, Dredge, Niley, Munroe and Williams.

The Charter was received at the previous meeting. Officers elected were—

President— Dr. J. W. Giffen
Vice-President— L. A. Phillips
Secretary— Douglas Shrimpton
Treasurer— Leonard Hill
Directors— Dr. Giffen, L. A. Phillips, Rev. J. Hoad, D. McMurray and S. Goldwell.

Credit Committee— J. Robison, Rev. S. Hunt, D. A. Perry.

Supervising Committee— J. A. Crellin, W. Snooks, George Anderson. The local union is greatly indebted to the five visiting gentlemen, whose enthusiasm and sage advice will prove of great value.

THE WAR FRONT

RUSSIANS REGAIN SMOLENSK
A victory of major importance is the regaining of Smolensk by the Russian forces.

They are now encircling the forces at Kiev. Then they will push on to secure their line to the Sea of Azov and the Black Sea, which will open the doorway of invasion from this sector. Events fraught with tremendously significant importance.

The American and Allied Forces are continuing to make progress in the New Guinea area. There are however difficult days ahead.

Bitter fighting continues in the Italian area, but the Allies are gaining.

The Broadcast Monday night over C. F. C. N. in the Soldier of the Press Program, described the landing of the American and Canadian troops on Alaska, and presented a pretty dismal picture. However, there is much cause for relief and thanks that there were no Japs to be encountered.

Jewish Social Centres

60,000 servicemen of all denominations from the combat forces of Canada, the United States, and other United Nations have visited the larger Jewish Men's Centres of the Canadian Jewish Congress, according to a statement by Harry R. Moscoe, executive secretary of the War Efforts Committee of the Canadian Jewish Congress. These Centres, which are located in Montreal, Toronto, Halifax, Winnipeg, Moncton and Vancouver, are being operated by the Canadian Jewish community as a token of esteem for the men of the forces.

The facilities offered in the Service Men's Centres of the Canadian Jewish Congress vary with each Centre. Most of them have relaxation rooms, entertainment, social programs, canteens, music rooms, shopping and mending service, etc. The Service Men's Centres are operated by the Women's Division of the Canadian Jewish Congress.

"The Jewish community of this country is deeply imbued with the knowledge of the issues at stake in this war. Every Jewish institution in this country is dedicated to advancing the war effort."

JAMES HARWOOD BUYS SWENSON FARM

The transfer of ownership of a large farm has recently been consummated when James Harwood, Reeve of M. D. Bow Valley, purchased the 1400 acre farm owned and operated by Swen Swenson since 1925. The farm is largely wheatland and the house equipped with electric light, modern plumbing facilities etc.

Mr. and Mrs. Swenson have purchased a home on the North Hill in Calgary and will move there towards the end of October.

SUCCESSFUL SALE OF C. P. R. STOCK

Good prices were realized at the Sale of Registered Cattle held at the C. P. R. Farm Friday last, when about sixty head were sold to interested buyers.

The sale netted \$10,150 the average price for the herd being \$200 per head. Large buyers were— Hays and Jensen, Carstairs—12 head; R. W. Graham Raymond—9 head; Clark and Richard Acme—10 head; F. Collicut, Aldrie—10 head.

Shower For Bride-Elect

Miss Betty McMurray, Miss Frances Gray and Miss Frances Jones were joint hostesses at the home of the former Saturday evening when they arranged a miscellaneous shower in honor of Miss Lois Shulte whose marriage to Mr. Roger Miller of the R. C. A. P. Calgary, takes place in Sacred Heart Church Calgary in mid-October.

Interesting and amusing contests were arranged causing much merriment and testing the skill and imagination of the guests.

Following an abundance of choice refreshments, the hostesses wheeled in a very cleverly built Airplane bearing a large number of lovely gifts. Lois was assisted by Jean Garrett in unwrapping the many gifts which were much admired by all. Lois, in a neat little speech expressed her thanks for everything.

The singing of "She's a Jolly Good Fellow" completed a very enjoyable evening.

HARVEST NEARS END

Owing to the continued good weather, harvesting is being carried on without hindrance of rain, snow or frost and at this week-end it is estimated 80% of wheat threshing will be completed. Wheat is averaging 15 bushels to the acre in this district, with some grade 1, but more grading 2, 3 or 4.

Flax is averaging 3 bushels per acre.

Fruit Shower for Crippled Children's Hospital

Upwards of fifty jars of fruit, jelly and jam were received Saturday afternoon for the Jr. Red Cross Hospital, and more is still coming in.

Mrs. A. Polley and Mrs. Leslie Hand received the donations at the Sample Room and Mr. Patrick is in charge of delivering the fruit to the Jr. Red Cross Hospital in Calgary.

The Committee wish to express their appreciation to the public for their support.

THE 'OUT-SIDE'

Field Marshal Wavel Advocates Return to "Pilgrim Spirit"

Field Marshal Viscount Wavel, viceroy-designate of India, told the Pilgrims Society at London on September 16th.—"We shall really be making progress when we are willing to spend rate as against Hitler—when we pay our schoolmasters at a much higher money against poverty, ignorance, unemployment and sickness at the same rate, and our lawyers, perhaps, at a somewhat lower rate."

Advocating a return to the "Pilgrim Spirit", he called lend-lease the "first attempt on a large scale for many years to put principles and men's lives first and money second."

He said—"We are approaching the end of the struggle with Hitler. We are only beginning the struggle to save civilization. . . . We shall, many of us soon, I hope, be taking off our uniforms, but we must not cease fighting, or let the sword sleep in our hands."

● To remove a light scorch from linen wet the stained area with cold water and expose it to the sun until the sun until the scorch disappears.

● Always remember to put a teaspoon of salt into the water in which you boil eggs. This will prevent the shells from cracking.

● The Canadian Carryover—
A writer in a farm magazine, in discussing the Canadian wheat carryover of 601 million bushels, says that if that volume could be piled into a column 60 ft. square it would reach 50 miles into the clouds. Were all this grain to be placed in freight cars and the cars coupled together it would be a mammoth train reaching from Vancouver to Halifax with several hundred cars in additions backed onto sidings. If the cars were separated into trains of 40 cars there would be 24,000 trains.

A COUNTRY EDITOR
SEES
Ottawa
WRITTEN SPECIALLY FOR THE
WEEKLY NEWSPAPERS OF CANADA
by JIM GREENBLAT, Editor of the SUN
SWIFT CURRENT SASKATCHEWAN

This column, which goes out to far and hindmost reaches of Canada, feels it cannot overemphasize the appeal to the "small investor" to think of the contribution he or she is going to, or should, make to the forthcoming Fifth Victory Loan. Everywhere, in all the towns and villages—they tell me at headquarters here—great preparations are being made by local committees to top local objectives. You know the fellows—your banker, your baker, your merchant, your school teacher, your farm community leader, your ordinary guy working behind the counter, will be appealing to you to "Speed Victory". The hundreds of releases which go through this office from army, navy and airforce, telling in piecemeal of the epic deeds, the sacrifices of your boys over there impels me to keep this subject "hot" before you and to try and convey the idea of the tremendous urgency of sending your spare dollars to strengthen our muscles of our war effort.

Our producers in Canada will be a fundamental of any post-war economies, national and international. The coal miner, the farmer, the fisherman,

the fruit grower, have a job ahead. This was pointed out in Ottawa in speeches before clubs made this week by a distinguished visitor, William Mahone, M. P., parliamentary secretary to the British Minister of Food, Lord Woolton. He emphasized that our task to produce food stuffs will be one of the greatest in history, because Europe right now is in a "state of nutritional exhaustion". He was sure our post-war problem would not be surpluses, but maybe shortages in such things as we produce in this country: meats, dairy products, fats and oils. Another interesting point he made—and I must boil these down to space—that out of every \$10 worth of food bought in Britain \$9.50 is controlled. Price stabilization is fundamental to the British system of food control.

A former weekly newspaper man, now associate editor of publications for the Boy Scouts Association of Canada, Bert Mortlock, came to his office the other day and mentioned a little thing he'd like a "plug" on nationally. That's "Apple Day" carried out by the Scouts in communities across the country at various dates next month.

A hundred thousand strong, the Boy Scouts seek to raise money for summer camp equipment, a hundred and one other activities. It's not a little thing but a big one. These are the boys whom we'll depend on to "Carry On, Canada" when the still visionary days of peace come; our future citizens, workers, business men, statesmen. Sure, the folks aren't going to turn the Scouts down on Apple Day in any community.

One of the greatest discoveries in bacteria killing drugs, penicillin, a miracle for war wounds, and which will also be invaluable in peacetime, is to be produced in Toronto and Montreal in Dominion government financed plants, employing 250 men and women. The initial contract is for 26 billion units largest single order for medical supplies placed by Munitions department. The plants will be in operation by February, 1944.

As one keeps coming across facts and figures on Canada's part in the United Nations war effort one has to look past the word "government" to that of "people" to realize the gigantic collective job being done. Just imagine the men and women hours in the terse statement that more than 35% of the motorized equipment used throughout the entire Middle East was of Canadian make; also 50% of the load carrying vehicles used by General Montgomery's 8th Army in North Africa. It's hard to realize that our 1943 production of scientific instruments for war purposes totalled 250 million dollars. We have 1,110,000 workers engaged in munitions work turning out 55 millions dollars worth a week. Since the war started the Dominion has expended on war construction and production 5½ billion dollars. Why, Canada has built two of the largest blast furnaces in the British Empire, this summer turning out pig iron at the rate of two and a half million tons a year.

Where does the national coffers get its filling? Part of it is from excise and income tax. During the month of August just past, for instance, the "take" was \$201,615,800 as compared with \$160,292,837 in the same month last year, which is about a 20% increase. Of this amount income tax all one accounted for \$121,490,570 and this is an "up" of over 25 million.

—To a Wheat Elevator—

—By Edna Jaques—

What dim cathedral there against the sky
Rears its staunch head to watch the year go by.

Marking the hours as they gently pass
With long, slim fingers shadowed on the grass.

A faithful sentinel it stands alone
Piercing the landscape like a shaft of stone.

No bells ring out to call the good to prayer
And yet a thousand songs are 'prisoned there;

Summer is whispering in the silent grain,
I hear against my heart the sound of rain.

The beat of wings above the sprouting wheat,
Old sloughs and summerfallow drenched in heat.

What precious treasure does this temple hold?
Great bins of wheat stored up like miser's gold.

Bread for a hungry world, the fruit of toil,
The blessed alchemy of sun and soil.

A golden heritage of wealth and power
Holding the skyline like a shining tower.

hand in hand*

FARSIGHTED householders are seeing the urgent need of preparing their homes now against this winter's coal shortage. They are acting now!

**HEATING SYSTEMS MUST BE
EFFICIENT: HOMES SHOULD BE
ADEQUATELY INSULATED.**

Here are some jobs you should be doing NOW!

1 Have your entire heating system inspected. Order necessary repairs.

2 Have your furnace thoroughly cleaned by a competent man. Insulate furnace and pipes where necessary.

3 Be sure that you have sufficient storm windows and that all windows and doors fit tightly. Have cracks in walls repaired. Weatherstrip wherever it is necessary. Consider seriously the insulation of ceiling and walls.

Many homes waste as much as 60% of their fuel through inefficient heating equipment, inadequate insulation and other heat losses. Winter is just around the corner. Prepare NOW!

Words of Winston Churchill New Radio Feature

What makes the words of Winston Churchill famous? Is it the man who utters them, or the times and circumstances in which they are uttered? The clue may be found in both. Churchill is a man of courage and principle, chosen to lead at a time when the world had been brought to the very brink of ruination by lack of courage and lack of principle.

Every Sunday evening, commencing October 3rd, a series of radio broadcasts will be made at 7.00 p.m. over CFAC, entitled: "THE WORDS OF WINSTON CHURCHILL". Broadcasts feature the well-known columnist and commentator, Richard J. Needham, author of "One Man's Opinion" which appears daily, Monday to Friday, in

the Calgary Herald.

In this unique radio feature, sponsored by the Calgary Brewing and Malting Co. Ltd., makers of "Calgary Ginger Ale, the most famous utterances of the British Prime Minister will be presented and discussed. They will be discussed as milestones in current history, as symbols of leadership by one of the world's great leaders, and—most important of all, perhaps—as the outward expression of the faith and determination of English-speaking people all over the world.

"The Words of Winston Churchill" will summarize, in a series of fifteen broadcasts, starting October 3rd, seven crowded years of defeat and victory, and will show the manner in which one man, because he symbolized the tolerance and dignity of his fellow-people, changed the course of history.

NEW SCHEDULE PRESERVES RATIONING EFFECTIVE SEPTEMBER 30, 1943

Preserves rationing gives the consumer a number of choices both of products and sizes of containers. Because of the wide range of container sizes and the variation in buying habits across the country it was necessary to put the system into operation and then make adjustments on the basis of experience.

Now that preserves rationing has been in effect for several weeks, it is possible to make some increases in coupon values. The new schedule is announced below and is effective September 30th.

The new doubled ration allowances for molasses, extracted and comb honey will enable consumers in areas where consumption of these products is heavy, to buy more and still leave enough for districts where the total demand is light.

The increased ration allowances for corn, cane and blended table syrups and maple syrup are adjusted to bring coupon values more closely into line with the great variety of container sizes now in use.

Coupons D-4 and D-5

NOW BECOME VALID SEPTEMBER 30th

The validity date of these coupons has been moved forward from the original October 14th to September 30th.

This has been done to accommodate purchasers of some items which at this season of the year are normally bought in large units.

Coupons D-6 and D-7 will become valid on November 11th and the original schedule will be continued from then on, with two coupons becoming valid every four weeks.

THE KID

—From the Chilliwack Progress—
The kid walks down the street. Sometimes he's in uniform, more often in a sweatshirt and an old pair of trousers.

It seems only yesterday that the kid was here, walking down the street dressed just as he is now.

The kid's been away. He's been to India and Egypt and England and Trinidad. He's been all over the United States and Canada. He's flown across the Atlantic often in a year. Distance to him is nothing.

The kid is one of the phenomena produced by the war. When you see him walking down the street of his old home town in his old sweatshirt and trousers you think of him a year or so ago, going to school, playing football and basketball, carrying his girl's books, shooting the odd game of pool. Physically, he hasn't changed much and it's hard to realize he hasn't been here all the time. He's glad to see someone he knows because he doesn't know many people in his home town anymore.

The kid has been around more than either he or us ever dreamed of. Before the war he was lucky if he ever travelled east of the Okanagan; now he travels hundreds of miles without batting an eye.

Somehow or other, when this thing is over, we must get the kid to talk about it, to tell both the youngsters in the schools and the oldsters about it.

One of the greatest mistakes of the last war was that men returning from the front refused to describe their experiences because they wanted to forget them, and they feared being called braggards and blowhards.

Their refusal to talk, along with a complete blackout of the war period in school textbooks, meant that a whole generation of young Canadians men and women grew up in ignorance of war and the reasons for it. The generation was careless of freedom and privilege and responsibility to the nation; it hated war, found it difficult to realize there were some things over which it was necessary to go to war. Only a second war brought the light to that generation.

And where does the kid in the old sweatshirt and trousers come in? With the school authorities, he shares the responsibility of seeing that both the older and the younger generations know about him and what he and others like him have been doing while they've been away from the home town.

Far more than school text books, the simple, honest story of the boy in the sweatshirt and old trousers can impress on people a sense of the sacrifice and devotion to duty which was required from those who helped preserve freedom and democracy. Indirectly, he can, if he will, give us a new sense of national consciousness which Canada needs so badly; a sense of pride in the achievements of our fellow Canadians, in Canada, in the things for which we fought—things too soon forgotten, often, in peacetime.

It would be tragic if Canada let the kid in the sweatshirt and old trousers slip back, suddenly, into civilian life, never to share his experiences or his

C. V. Charters Advocates Moral Offensive by Press

C. V. CHARTERS, Brampton, Ontario, managing director of the Canadian Weekly Newspapers Association, told the Saskatchewan division of the organization in Regina that it would be the privilege of the press after the war to throw open its columns in a great moral offensive.

We agree with Mr. Charters and ask why wait until after the war?

Beautiful Autumn Weather

THE poet who wrote—

"Oh to be in England,

When Lillac-Time is here,"

could have penned similar lines of the glorious weather and indescribably beautiful landscapes that have spread for miles on miles in every direction in this portion of Alberta during the past three weeks. Never in the memory of the oldest inhabitant has there been so long a period of bright sunny days.

Added to these was the exquisitely beautiful coloring of the mixture of green and golden trees against a ceiling of clearest blue sky.

One gazed in rapt and deep emotion at the beauty of it all.

WEDDING

NELSON - WILLIAMS

A wedding of much interest to Cluny and Queenstown communities took place in Cluny on Tuesday, September 28th, at the home of the bride's parents when Joan Williams was united in marriage to Allan Nelson, son of Mr. and Mrs. Dave Nelson of Cluny. The ceremony was performed by Rev. M. Davidge of Ponoka, who, 24 years ago, officiated at the marriage of the bride's parents.

The bride was gownned in a turquoise blue afternoon frock of wool and wore navy accessories. She wore a corsage of gardenias.

Miss Betty Williams, sister of the bride was bridesmaid wearing an afternoon ensemble in gold wool while the groom was supported by Walter Hayes of Gleichen. Miss Barbara Haymond played the wedding music.

The rooms were tastefully decorated with pink and white streamers, wedding bells and a profusion of flowers.

A reception was held during the af-

DON'T PLAY TAG WITH "JACK FROST"

It's a losing proposition trying to beat the Weather Man at his own game. Remember—you can kid yourself that no harm is done by waiting until your gears are stiff from "frozen" grease . . . or your oil takes several minutes to flow freely . . . or your radiator spurts forth those tell-tale streams of steam—but kidding yourself certainly won't save your pocket from repair bills later.

SO BE PREPARED! Let's put your car in shape NOW for cold weather driving while our Special Combination Fall Rates are in effect.

—CHAPTER NO. 6—

If there's one place in the world where time is moving along in high gear it's in the army when a fellow is taking his training and learning something new most every day.

It just seems like the other afternoon that we left Calgary for Camrose, as raw a bunch of rookies as there ever was. Now we're back in Calgary again, partly trained soldiers, up at Currie Barracks where they're going to give us the final part of training before they send us over to where we can get some action.

I thought Camrose was tops as an army camp but brother you've just got to see Currie if you want to really see something. . . . fine, white, red roofed buildings surrounding the swell training square, rows and rows of neat huts a mighty fine battle course, and action all the time.

By the time you hit here they can tell pretty well whether or not you're going to make a real fighting man and I can tell you there isn't a man who wants to let his squad down.

We go over the same kind of an obstacle course here as at basic but there's a difference. We need to go over in fatigue outfits before and now we rip over the course with packs, rifles and other equipment.

We got on a new business the other morning and it's really something where team work counts. . . . its attacking through barbed wire.

They put up a stretch of wire in a little coulee near the centre and gave us the low-down on how a platoon should advance through it.

It works something like this. When you get the go ahead sign the first makes a run at the wire and throws himself onto it bearing down with his body. The next fellow leaps on the first man's back and bears down the rest of the wire and then the rest of the platoon stream across using the first two as a sort of human bridge. I'm telling you, it's a fine system and when the boys are working together they can go over the wire and be on

their way in no time at all.

Learning River Crossings—

Another thing that we are learning is river crossings and I'm just mighty glad that it is summer and the river is a little warmer than it might have been a couple of months back.

This is just another of those things where you learn to sort of look after yourself.

We advanced through the brush to the river and then our officer in full kit dived in with a rope around him while we kept the river covered on the idea that the enemy might have snipers on the opposite bank.

As soon as he got across—the spot isn't awfully deep—we swung our rifles around our necks and followed. While this was going on the boys with the mortars and Brens cut a couple of trees and made three-cornered rafts lashed with rope. Then they put brush over the poles, put the weapons on top and with the rafts in front of them headed across the river.

Some of the boys had to come through where it was quite a bit deeper so they wrapped packs and stuff in ground sheets and used the bundle as sort of a raft to make the crossing. It's really something, this river crossing, even if a fellow does get mighty wet swimming across the Elbow.

There's one thing about being at Currie and that is that I'm in a prime spot to get home and see the boys and also Miss Edith, the school ma'am who has been writing to me right regular.

I got down on what they call a "forty-eight" last week-end and were the folks ever swell to me. There just happened to be a dance in the school house and I was never off the dance floor the whole evening and most of the time I was dancing with Miss Edith.

When it's getting time to leave the Boss comes over and tells me I don't have to be hurrying as he's going home with the boys in the truck and is leaving the car for me.

I begin to tell him that he doesn't need to do that when he ups and winks and says, "I don't know Johnny. Every

minute helps, you know, and it should n't be long now before you're heading overseas."

Well after the dance winds I take the car and I drive Miss Edith to where she is staying about half a mile away from the school.

"You know, Johnny," she says, "It isn't going to be long until you're leaving and it would be nice to remember seeing the sun coming up over the hill and the light drifting down the valley."

It's then that I look at my watch and find that it's mighty close to being five o'clock and it isn't going to be long until the sun is creeping over the hill.

I start to thinking and then I tell Miss Edith all about my idea of coming back and getting a piece of land of my own and raising a few cattle. I tell her that I'm thinking a fellow can't be doing that all by himself and in no time at all I've got around to asking her if she'll marry up with me when the war gets over and I come back.

"Johnny," she says, "Waiting is so hard, and I've missed you so. Perhaps it would be better if we were married before you leave."

Well, I'm telling you, I suddenly figure I'm the luckiest fellow in the whole world.

I kiss her and just then the sun comes drifting up over the hill and it floods the hilltops with gold and then creeps down and lights up the valleys where the deep shadows are still hiding.

We sit there for quite a spell more and talk about our getting married and then I take her home.

When I get back to the ranch the boys are all at a late Sunday breakfast and they start in to kid me about taking so long to come home.

"Fellas," I tell them. "You can kid me all you want but I'm the luckiest guy in the whole darned army on account of Miss Edith is going to marry me right sudden."

Well you should see that bunch. They come a-whooping in my direction slapping me on the back and wishing me luck.

The boss says that I've got to make arrangements to be married right out at home and he tells me I don't need to worry on account of he will look after every thing for me.

After all that I just go back to camp feeling right swell and I figure there isn't a luckier soldier in the whole army.

I'm right too because the day after I get back the captain calls me in and tells me that he has recommended me for promotion to lance-corporal.

That one stripe adds to everything else to make me the happiest guy in Currie, even if there are hundreds of fellows up there.

I guess I show it too, because the boys are always kidding me about looking like a cat that has eaten a canary.

"I don't see why the senator got so mad because it was in the paper that he had retired."

"Well, you see it was put under the 'Public Improvements' by mistake."

Aged to get More Money

Pensioners in Alberta Will Now
Receive \$30 Month

EDMONTON, Sept. 26.—Hon. Solon
E. Low, provincial treasurer, announced
Saturday that Alberta old age pen-
sioners will receive \$30 a month under
arrangements being completed between
the Alberta and Dominion govern-
ments. It is expected the increased
pensions will be retroactive to
Sept. 1 and will be included in the Oct-
ober payments.

Mr. Low said the government has
authorized the signing of an agreement
with the Dominion increasing the pen-
sion from \$240 to \$260, which would
mean \$25 a month to every pensioner
whose income does not exceed \$365 a
year. In addition, Alberta already has
been paying a \$5 a month supplement-
ary pension, and this will continue,
making the pension \$30 a month.

The agreement has been signed and
forwarded to Ottawa for completion by
the minister of finance.
The order provides the increase will
be from Sept. 1 and the Dominion
government tentatively has agreed to
the date.

IN MEMORIAM

BACKS—

In loving memory of Bill, who died
on Active Service, October 1st, 1942.
"No one knows how much we miss you
No one knows the bitter pain,
We have suffered since we lost you,
Life has never been the same.
In our hearts your memory lingers
Sweetly, tenderly, fond and true,
There is not a day, dear Bill,
That we do not think of you."
Sadly missed by Mother, Dad, Jimmy
and Shirley.

IN MEMORIAM

BACKS—

In memory of our dear brother Bill,
who passed away October 1, 1942.
"No boundaries now can still your
urge to fly,
Nor fate reach up to pluck you from
the sky,
On to new heights your searching
heart can go,
Who sped into the sunset's flaming
glow."
Fondly remembered by Mary, Jean
and Walter.

NIGHTINGALE

By M. H.

The Nightingale Woman's Institute
held its regular meeting at the hall
last Friday. Current events were dis-
cussed followed by the roll call, "My
Pet Economy". Mrs. Brown reported
the kit bag filled and sent to the navy
league. Some lovely quilt blocks were
turned in and some red cross work
distributed. It was decided to send
Christmas parcels to Nightingale boys
overseas and to write Christmas let-
ters to all local boys and girls in the
services. Some work was planned for
the fall bazaar. Mrs. Don Dugan, our
child welfare convener read on inter-
esting item on child training. She
stressed the value of obedience and
punctuality. Mrs. Parr was hostess
for the day and a delicious lunch was
served at the close of a pleasant after-
noon.

Captain and Mrs. Alvah Downey and
children of Calgary were week-end
visitors at the Harriman home.

Mrs. Stoodley and Myrtle were Cal-
gary visitors on Tuesday. Myrtle
went back to her post with the R. C.
A. F. at Pearce Alberta. She had en-
joyed a two weeks furlough at home.

Quite a large crowd attended the
dance at the hall last Friday and a
good time was had by all.

Threshing is well underway here
and several have completed their har-
vest work.

CHRISTIAN SCIENCE

"Unreality" will be the subject of
the Lesson-Sermon at all Christian
Science Churches on Sunday. The
Golden Text is Romans 8 to 31. One
of the Scriptural citations is "The
Lord hath brought forth our righteous-
ness; come, and let us declare in Zion
the work of the Lord our God" (Jerem-
iah 51: 10). One of the correlative
passages from "Science and Health
with Key to the Scriptures" by Mary
Baker Eddy, is "From beginning to
end, whatever is mortal is composed
of material human beliefs and of noth-
ing else. That only is real which re-
flects God." (p. 478).

"Which would you rather be in, an
explosion, or a collision?"

"A collision, because in a collision
there you are, but in an explosion,
where are you?"

ROCKYFORD

By K. M. C.

The wonderful harvest weather has
given the farmers a good chance at
the job in hand and now many are
winding up for the year and others
with only a small amount of grain or
flax to be threshed. Of course, there
are still many who will be busy some
time yet especially where help is
scarce.

The friends and neighbors of Mr.
and Mrs. J. M. Allen gathered at the
church parlors on Friday, September
24th. In a farewell party, before they
leave for the States to make their
home nearer their family. Mr. and
Mrs. Allen have lived near and in
Rockyford for a number of years in
which time they have made many
friends and have taken an active in-
terest in the community doings. They
will be missed in every event. They
will be leaving as soon as arrangements
are completed. At the close of the
social evening, the party gathered,
presented them with a travelling bag
to use on their journey etc.

Word was received on Sunday, Sept.
27th. of the death of Mrs. Wm. T.
Rudd at Trail, B. C. where they have
been living for about two years. Mrs.
Dorothy Louise Rudd was an old timer
in the district having come here with
her father and sisters when she was a
child. Her father, Mr. Emil Pust, ran
the Tudor Store and Lumber Yard be-
fore there was a C. N. R. Railway or
any Rockyford town. She was married
to Wm. Rudd in 1915 and has lived
near Rockyford since, until this last
two years.

She was born at Littleport, Iowa 48
years ago and came to Rockyford in
1910.

Surviving are her husband at Trail;
one daughter, Ruth, of Calgary; one
son, Sgt. Pilot Mac Rudd, R. C. A. F.,
Lorette, Que.; two sisters, Mrs. R. E.
Kenny, Redlands, Alberta, and Mrs.
George Muehlechner, Calgary and one
granddaughter.

Services were held at the United
Church, Rockyford Thursday at 2 p.m.,
and Rev. J. H. Garden, Calgary officiat-
ed. Interment took place in Rocky-
ford cemetery. Jacques funeral home
in charge of arrangements.

Master Edmond Halpin is again able
to be home and out for walks after his
recent operations and long stay in the
hospital.

Mrs. R. L. Stone has again been in
Calgary under the Dr.'s care for about
a week, but expects to return early
this week.

Mrs. L. Howick was a visitor in
Rockyford at the Dunmore home for
a couple of days lately.

Sgt. Wallis Gibson spent Saturday
at his home here while en route to
Quebec where he will take up an
Officer's course for six weeks. His
wife and family are still in Vancouver.

We are pleased to hear that Albert
Stark is progressing better now after
his recent accident in which he was
badly burned. He has suffered a great
deal.

Rally Day Services were held at the
United Church on Sunday at eleven
when the church and Sunday School
combined and both the Sunday School
Superintendent, Mr. S. Roppel, and the
minister, Mr. Ellison, took part, with
some of the pupils assisting. The
scholars received their certificates
for their first year of attendance and the
stars for their succeeding years. Several
of them had their certificates
completed with all the stars for seven
years.

LET'S BE DOING

...while we're planning

● Everybody is thinking a great deal about the future these days... planning... getting ready for the period to follow the war. All realize that the war may bring surprises—but the tide is turning in our favour.

Chemists and engineers, producing things needed for war, are making discoveries which will mean comforts and conveniences for all of us when peace comes. New methods of making things, new processes, new materials, now being filed away in blue prints and formulae, will bring us many new and useful articles. Many things not available now will be replaced by better models and designs.

You may have plans for a new home, remodelling your present home, new home furnishings. If you are a farmer you will need new and improved equipment and machinery.

Now, while you are thinking and planning, you can do something to insure that your plans can be carried out. Victory Bonds—which can be bought on convenient instalments, with money as you get it—provide a means of keeping your savings intact, earmarked for things you want.

Most Canadians are saving money. Most of us are buying Victory Bonds and when we buy Victory Bonds we are helping to win the war. We are helping to speed the day of victory and we are doing something that will benefit ourselves.

WHAT IS A VICTORY BOND?

A VICTORY BOND is the promise of the Dominion of Canada to repay in cash the face value of the Bond on the date of maturity with half-yearly interest until that time. A Victory Bond is the safest investment in Canada backed by the entire resources of the Dominion. Canada has been issuing bonds for 75 years, and has never failed to pay every dollar of principal and interest when due. A Victory Bond is an asset readily marketable at any time.
